

September 9, 2022

Congratulations!

Your organization has been awarded the 2022 NICHE and ABIM Foundation Choosing Wisely® Trailblazer Award. This award recognizes your clinical team for improving care for older adults in one of the clinical areas identified by the American Academy of Nursing's Choosing Wisely® recommendations.

The 2022 Choosing Wisely® Trailblazer Award was created by NICHE and the ABIM Foundation to celebrate leadership in improving quality care. With the mission to educate front-line nurses and to position nurses as leaders, NICHE works to advance systemic change to promote age-friendly healthcare. Similarly, the ABIM Foundation leads a national initiative to promote evidence-based medicine, encouraging clinicians and patients to engage in conversations about care where the risks outweigh the benefits. They also encourage health systems to implement interventions to reduce low-value care.

We know that NICHE members consistently use evidence-based practices to care for older adults, and this award acknowledges those efforts. It is our hope that this award will serve as an ongoing reminder of your achievements and that you will take a moment to reflect on your team's accomplishments and take pride in knowing that you are changing the landscape of healthcare.

Sincerely,
